

RE: CG Docket No. 03-123

Federal Communications Commission (FCC)

445 Twelfth Street SW
Washington, DC 20554

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

Cynthia J. Kittrell

JUN 22 2007

RE: CG Docket NO 03-123
Federal Communications Commission (FCC)
445 Twelfth St SW
Washington, DC 20554

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell and Tate:

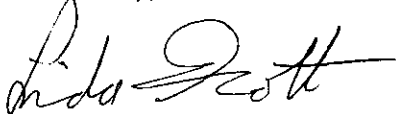

This letter will address Video Relay Service (VRS) and the intent of the FCC staff to cut the VRS rate. This action will then cut the availability of the VRS to the deaf. Please consider this action and what it will do to the deaf community. More should be done to allow the deaf population to lead normal lives including having VRS services available to them.

The VRS rate should encourage the VRS providers to:

- ❖ Serve more deaf people, and not discourage them from reaching out to more deaf people
- ❖ Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the Deaf communities
- ❖ Provide services and technology improvements such as the development of new videophone equipment which will meet the requirements for the Americans with Disability Act

The deaf community relies on the VRS. Please stop any cuts on this program.

Sincerely,

Linda Scott
Northeast Pennsylvania Center for Independent Living
Clerical Support Wavier Services

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

Subject: Phone loggings

Sir,

My complainets are about phone loggings. My husband made several calls to the lady or recieved calls from her for several months since we got our VP last Nov. Mmy husband eased it every time he made the calls or recieving call. They already had affairs. I asked for phone loggings recards Nov 2006 to May 2007. The Technical Support said they can't help me out. I didn't think it wasn't fair to me because other phone companys always give the phone loggings or keep records thur the mail. WHY can't we get one in every month? It almost destory our marriage life! I like VP relay service.

It made me sad how VP destory our lifes!

My goals, please give me the all the records that we had since Nov 2006 ^{to} and every month we get the phone loggings!
I will be waiting to hear from you soon!

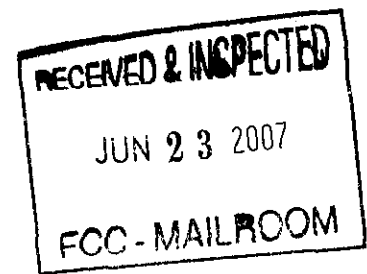

Gwen Hurst VP phone no 717-738-2143

not video tape

I plead you to help me!

Gwen Hurst
